

can't be too far away. The pads are scheduled to pop a little louder Thursday, the first day UND will go live during fall camp.

"It'll finally feel good when we do go live," UND sophomore receiver R.J. McGill said.

The Sioux receivers felt good about their latest practice as McGill, Chris Anderson and Greg Hardin all came up with noticeable catches from quarterbacks Brent Goska and Joey Bradley.

Goska and Bradley continue to battle for the No. 1 quarterback spot and both delivered a handful of passes deep and on the money.

Goska hit Anderson with a 55-yard on-the-money strike down the middle to highlight the team portion of the practice.

"It felt great to get in there and show what you can do in all camp," said Anderson, a senior. "That's what it's all about."

One of UND's concerns offensively last season was the lack of a second go-to

Blair Townsend took back (from an injury). Greg (Hardin) had a nice pass deep down the sideline. And we know that Chris Anderson can run.

"But we need to see where the young guys fit in. There is some speed out there and some ability. We just have to make sure it's going in the right direction."

Hardin (41 catches, 736 yards) and McGill (19, 119) are the top two returning receivers from last season.

"I think we have a group of wide receivers now that UND hasn't had before," said McGill, a sophomore from Phoenix. "I know UND has had good ones. But we're now coming from Arizona, Texas and California. We're bringing a different type of ability to UND. And I think it's going to be exciting."

"Trying to learn the offense is the hardest thing. You have to learn on the run and that's what our young guys are doing."

True freshmen receivers Jameer Jackson of Brooklyn

vicious day," Mussman said. "The pads may have played into that."

"Neither side of the ball dominated. The offense had a couple of big plays down the field. It was good to see us stretch the field vertically. But as practice went on, the defense got some of that momentum back that it didn't have in the first session."

"I liked the give and take."

One surprise

UND's recruiting emphasis the past two years has been speed.

Quickness in the secondary has become noticeable.

There have been no major surprises through the first few days of fall camp, but Mussman has taken notice of the UND secondary.

"The thing that has surprised me more than anything is our ability to play man defensively," the UND coach said. "We don't have all of our routes in yet, but some of the guys have impressed me."

team. The Fernan, Minn., native, though, has primarily been seeing work with the No. 3 offense so far. Mussman said he needs to see Hendrickson make strides in leadership and command of the offense.

Hendrickson has also shown versatility. He saw action at wide receiver last season before the injury to Landry.

Leaning on experience

Both Goska and Bradley hope experience from a season ago is beneficial this year.

"Watching film from last year, there were times when I was second-guessing my reads," Goska said. "I wasn't sure if what I was seeing on the field was correct. But I've come to the realization that you have to go with what you see first and make it happen."

At media day, coaches stressed the quarterback position is one of 11 spots on the offense.

"With all of the athletes we have, the quarterback just needs to run the offense," Goska said. "You don't always have to make the big play, but rather put the offense in the

"The more you dive into that and engulf yourself with those thoughts ... that's not going to help you," Bradley said. "You need to do your job and trust that everyone is doing theirs. I try to get better every day; that's my approach."

Goska explained his approach similarly.

"Go out every day and do the best you can," Goska said. "Don't get your head too low on a bad play or too high on a good day ... come to work every day and be ready to battle."

"It's about making each other better because in the end it's not about who's starting, it's about winning games."

JoePa released from hospital, expected back today

STATE COLLEGE, Pa. — Joe Paterno was released from the hospital Tuesday, two days after getting blindsided at Penn State practice by a player and injuring his right shoulder and pelvis.

The school said in a statement the 84-year-old coach was looking forward to returning to practice Wednesday.

"It's time for everyone to turn the attention to the team," Paterno said in the brief statement. "We have a lot of hard work ahead in order to be as good as we think we can be."

Penn State confirmed on Tuesday afternoon that no surgery was required for Paterno, and that "precautionary measures" were complete.

Public Notices

STATE OF NORTH DAKOTA
PUBLIC SERVICE COMMISSION
BakkenLink Pipeline, LLC
Crude Oil Pipeline in Williams to
Billings County
Siting Application

Case No. PU-10-218
NOTICE OF FILING AND NOTICE
OF HEARING
August 3, 2011

On June 21, 2011, BakkenLink Pipeline, LLC (BakkenLink) filed applications for a certificate of corridor compatibility and a route permit to authorize construction for approximately 144 miles of 8-inch and 12-inch crude oil pipeline in Billings, Dunn, McKenzie, Stark and Williams Counties, North Dakota, as shown on the attached map. The trunkline will have bi-directional capability, and will be able to transport crude oil between Beaver Lodge and a new rail facility at Fryburg, North Dakota. BakkenLink also filed a request for waiver of procedures and time schedules established under North Dakota Century Code Chapter 49-22 and North Dakota Administrative Code Chapter 69-06-06. The Commission finds the applications are complete. A Public Hearing on the applications is scheduled to begin September 1, 2011 at 10 a.m. CDT, McKenzie County Court House, 201 5th Street NW, Watford City, North Dakota, 58854. The issues to be considered are:

1. Is the proposed facility of such length, design, location, or purpose that it will produce minimal adverse effects, or, does a demonstrable emergency exist which requires immediate construction and that adherence to the procedures and time schedules would jeopardize the utility's system?
 2. Will the location, construction, and operation of the proposed facilities produce minimal adverse effects on the environment and upon the welfare of the citizens of North Dakota?
 3. Are the proposed facilities compatible with the environmental preservation and the efficient use of resources?
 4. Will the proposed facility locations minimize adverse human and environmental impact while ensuring continuing system reliability and integrity and ensuring that energy needs are met and fulfilled in an orderly and timely fashion?
- For more information contact the Public Service Commission, State Capitol, Bismarck, North Dakota 58505, 701-328-2400; or Relay North Dakota, 1-800-366-6888 TTY. If you require any auxiliary aids or services, such as readers, signers, or Braille materials, please notify the Commission at least 24 hours in advance.
