BakkenLink Pipeline, LLC
 Crude Oil Pipeline - Williams to
 Billings County
 Siting Application
 Case No. PU-10-218
**NOTICE OF CONTINUED
 HEARING**

September 7, 2011
 On June 21, 2011, BakkenLink
 Pipeline, LLC (BakkenLink) filed
 applications for a certificate of cor-
 ridor compatibility and a route per-
 mit to authorize construction for ap-
 proximately 144 miles of 8-inch and
 12-inch crude oil pipeline in Bill-
 ings, Dunn, McKenzie, Stark and
 Williams Counties, North Dakota,
 as shown on the attached map. The
 trunkline will have bi-directional
 capability, and will be able to trans-
 port crude oil between Beaver Lodge
 and a new rail facility at Fryburg, North
 Dakota. BakkenLink also filed a re-
 quest for waiver of procedures and
 time schedules established under
 North Dakota Century Code Chap-
 ter 49-22 and North Dakota Admin-
 istrative Code Chapter 69-06-06.

On August 3, 2011, the Com-
 mission issued a Notice of Filing
 and Notice of Hearing scheduling a
 public hearing to begin September
 1, 2011 at 10 a.m. CDT, McKenzie
 County Court House, 201 5th Street
 NW, Watford City, North Dakota,
 58854. The Commission found the
 applications were complete.

At a worksession on August 30,
 2011, the Commission indefinitely
 continued the formal hearing sched-
 uled to begin September 1, 2011, to
 be rescheduled for a later date.

A Public Hearing on the applica-
 tions is now scheduled to begin
 October 25, 2011 at 9 a.m. CDT,
 McKenzie County Court House, 201
 5th Street NW, Watford City, North
 Dakota, 58854. The issues to be con-
 sidered are:

1. Is the proposed facility of such
 length, design, location, or purpose
 that it will produce minimal adverse
 effects, or, does a demonstrable
 emergency exist which requires im-

mediate construction and that ad-
 herence to the procedures and time
 schedules would jeopardize the uti-
 lity's system?

2. Will the location, construc-
 tion, and operation of the proposed
 facilities produce minimal adverse
 effects on the environment and upon
 the welfare of the citizens of North
 Dakota?

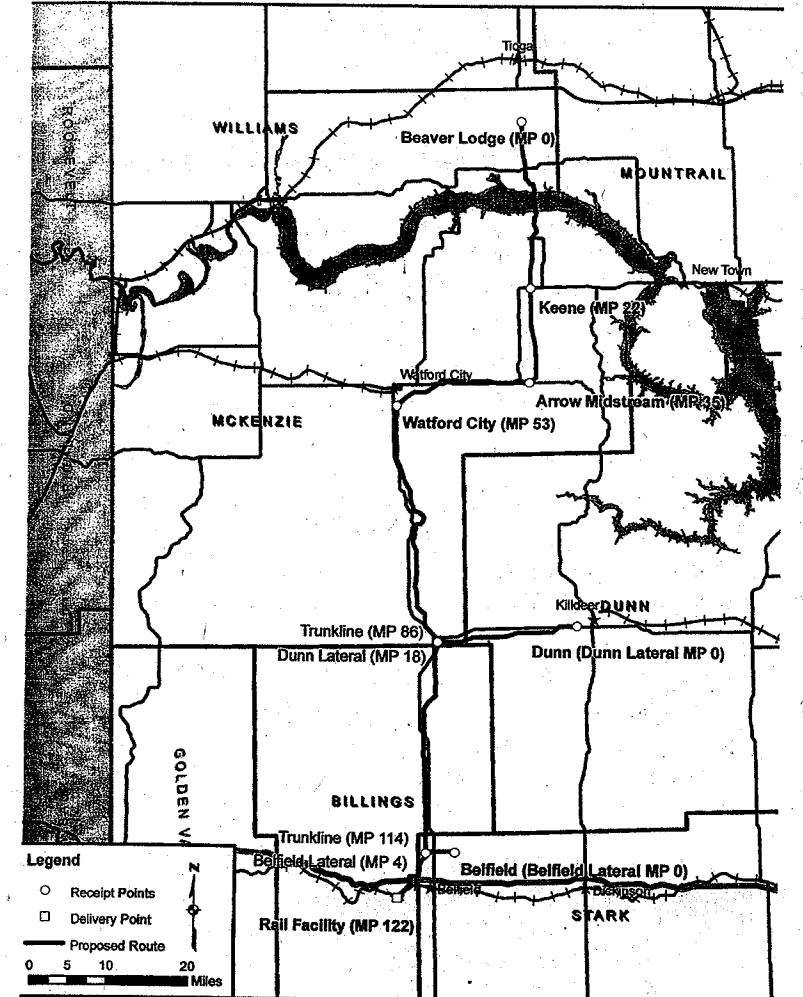

3. Are the proposed facilities
 compatible with the environmental
 preservation and the efficient use of
 resources?

4. Will the proposed facility loca-
 tions minimize adverse human and
 environmental impact while ensur-
 ing continuing system reliability and
 integrity and ensuring that energy

needs are met and fulfilled in an or-
 derly and timely fashion?
