**Subject:** Accident on pipeline ROW - PU-10-218

Mr. Fahn,

Pursuant to item 28 of the Feb. 29<sup>th</sup>, 2012 order for Case No. PU-10-218 we are reporting that there was an accident involving one of our contractors employees on the pipeline ROW. The accident occurred on 5-6-2013 at approximately 8:20 central time.

An Alpha Oil & Gas employee was operating a 4-wheeler during his duties of installing pipeline markers. The 4-wheeler was traversing a hill and the 4-wheeler rolled over the employee. The employee was transported to St. Joseph's hospital in Dickinson. The employee sustained a fractured scapula and 4 broken ribs.

At this time no surgery is required and the employee is recuperating.

Alpha safety personnel conducted an investigation and preliminary discussions center around traversing a hill with too much weight in the bed of the 4 wheeler.

Please let me know if there is any additional information you require.
