Mr. Darrell Nitschke
Executive Secretary
North Dakota Public Service Commission
600 East Boulevard Avenue, Dept. 408
Bismarck, ND 58505-4080

**RE: BAKKENLINK PIPELINE, LLC,
CASE NO. PU-10-218 — Request for
Route Adjustment under N.D.C.C. § 49-
22-16.3(3)**

Dear Mr. Nitschke:

Enclosed for filing, please find an original and ten (10) copies of the following documents in support of BakkenLink Pipeline, LLC's ("BakkenLink") request for a route adjustment under North Dakota Century Code Section 49-22-16.3(3) and an amended Certificate of Corridor Compatibility and Route Permit:

1. Certification of Darren Snow;
2. Maps depicting original route and requested route adjustment;
3. Executive Summary of the Class III Inventory Report – BakkenLink Pipeline Beaver Lodge to Dry Creek: Phase II of the BakkenLink Pipeline in McKenzie and Williams Counties, North Dakota;
4. Letter from the Bureau of Land Management Recommending a Finding of "No Historic Properties Affected;"
5. Letter from North Dakota State Historical Preservation Office concurring with "No Historic Properties Affected;"
6. Letter from Carlson McCain regarding exclusion and avoidance areas; and

7. Memorandum from Michael Istre, P.E., Project Consulting Services, Inc., discussing surface impacts.

Also enclosed is a CD containing the above-referenced documents in PDF format. The documentation submitted herewith in support of BakkenLink's route adjustment request satisfies the provisions of Section 49-22-16.3(3) for a route adjustment prior to or during construction.

First, the construction activities will not affect any known exclusion or avoidance areas. The Certification of Darren Snow in Support of the Application of BakkenLink for an Amended Corridor Certificate and Route Permit ("Certification") states that the adjusted route will not affect any exclusion or avoidance areas. Also included herewith is a letter from Carlson McCain regarding the absence of exclusion and avoidance areas.

The Certification also states that the adjusted route is no more than 1.5 miles outside the designated corridor, which is supported by the maps included herein for the adjustment request. The maps contain necessary route adjustment information including the length of the route outside the designated corridor, the corridor adjustment, and the width of the revised corridor.

In determining the necessity and location of the route adjustments set forth in the maps, BakkenLink complied with the National Environmental Policy Act ("NEPA") process and conducted landowner meetings and tribal consultations, all of which led to the determination of the route adjustments. A Class III cultural survey was also conducted to ensure cultural resources would be avoided by the route adjustment. A copy of the Class III Report Executive Summary is attached, with a copy of the full report available to Commission staff upon request.

The Certification also states that BakkenLink is in the process of receiving approval from all landowners affected by the requested reroute, with the landowner contact information and associated easement descriptions attached as Exhibit A to this letter. Further, no government entity has communicated any opposition to BakkenLink regarding the route adjustment. In fact, the Bureau of Land Management recommended a finding of No Historic Properties Affected by the route adjustment by letter dated December 31, 2014. The State Historical Preservation Office has also concurred with the finding of No Historic Properties Affected by letter dated January 7, 2015. Copies of the corresponding letters are submitted herewith. Also as noted, BakkenLink participated in the NEPA process for the route adjustment determination.

Finally, the Certification states that BakkenLink will comply with the Commission's laws, rules, and regulations with respect to any adjustment.
