RE: BakkenLink Pipeline LLC Tree and Shrub Plan (Case No. PU-10-218) Update 9/30/2016

Dear Mr. Nitschke:

The BakkenLink Pipeline Tree and Shrub Restoration Plan, (Case No. PU-10-218, Revised April 15, 2016), Section 4.0 Replacement Monitoring requires BakkenLink to submit a report identifying the condition of replacement plantings prior to October 1 of each year. This report satisfies the requirement of year 1 and identifies replacement plantings activities and conditions as reported by the McKenzie County Soil Conservation District.

Plantings identified in the revised plan dated 4/15/16 identified estimated plantings. The attached report identifies actual plantings and conditions. Additionally, BakkenLink Pipeline will turn over the remaining planting of 23, 357 shrubs to the ND Forest Service.

Sincerely,

A handwritten signature in blue ink that reads "Darren Snow". The signature is fluid and cursive, with the first name "Darren" being larger and more prominent than the last name "Snow".

Darren Snow,
Area Manager, ND/MT
