RE: Gavilon Grain, LLC  
Facility-Based Grain Buyer License – Jamestown (East)

Gavilon Grain, LLC, Omaha, Nebraska, currently operates two grain warehouses under one facility-based grain buyer license at Jamestown, North Dakota. Commission staff recently became aware that these facilities are being operated independent of each other and notified Gavilon Grain, LLC that they must maintain separate licenses as provided in N.D.C.C. § 60-02.1-07. The grain warehouse referred to as Jamestown West will continue operating under the existing facility-based grain buyer license. The facility-based grain buyer license application filed by Gavilon Grain, LLC is for the grain warehouse referred to as Jamestown East.

All license requirements have been met. I recommend the request be approved. A corresponding motion and order are attached.
