PRODUCTS-LLC**

FROM DIRECTOR - RECLAMATION DIV.

Date: _____

Action: _____

Info. Only: _____

Info & File: _____

July 30, 2010

James R. Deutsch, Director
Reclamation Division
Public Service Commission
600 East Boulevard Ave. Dept. 408
Bismarck, ND 58505-0480

Dear Director Deutsch,

Included in this mailing are changes to the Revision and Renewal Application as suggested in your letter dated July 19, 2010.

To comply with your requests you will find:

- Corrected copy for the newspaper advertisement.
- A revised Public Notification Map
- Table E-1 which was mistakenly omitted from the first mailing corresponding to Section IV Environmental Resources (item #4)

In regard to your response to the questions I posed in my July 2, 2010 letter about the mineral owners. We are in discussion with the Bureau of Land Management and will ask them for documentation regarding their decision about the definitions of coal and leonardite.

We are attaching a formal request to waive the 180 day backfilling and the three year seeding requirement with this mailing. You'll notice the explanation corresponds with Table E-1, also submitted in this mailing.

The engineers profile and cross section of the road requested in your letter dated May 5, 2010 will arrive under separate cover.

Thank you for your consideration.

Warm Regards,

Cherie Harms
