ORDER GRANTING TRADE SECRET PROTECTION

OCTOBER 10, 2012

On July 27, 2010, the attorney for each company indicated in each 2010 captioned case filed an application for each company for trade secret protection under North Dakota Administrative Code Ch. 69-02-09, asking the Commission to protect against public disclosure certain information filed by each company in compliance with the Commission's requirements regarding each company's annual Eligible Telecommunications Company report filing.

On July 29, 2011, the attorney for each company indicated in each 2011 captioned case, except Case No. PU-11-577, filed a similar application relating to each company's 2011 filings, and a similar application was filed for Case No. PU-11-577 on July 31, 2011.

On October 9, 2012, North Dakota Public Service Commission Staff filed and served its responses to the requests, recommending the Commission approve the requests.

North Dakota Administrative Code § 69-02-09-04 requires that the Commission staff examine the information and application and make a recommendation to the Commission. Staff has reviewed the requests of the captioned companies for protection of information.

In both the 2010 and 2011 applications, the companies ask the Commission to protect the following information from disclosure:

1. In the 2010 filings, specific 2009 construction and upgrade projects undertaken by each company to expand or improve service, and in the 2011 filings, similar relevant 2010 projects;
2. In the 2010 filings, construction, upgrade and maintenance projects planned for 2011, and in the 2011 filings, similar relevant projects for 2012;

3. In the 2010 filings, each company's 2009 and projected 2011 network and operating expenses and in the 2011 filings, similar information for 2010, 2011, and 2012.
4. In the 2010 filings, outage information for each company's 2009 outages over 30 minutes, including geographic area, start and end times, description, resolution and services affected, and in the 2011 filings, similar information for 2010.

The companies stated that the information they seek to protect is protected by the Federal Communications Commission (FCC) under federal rules. The companies also state that the information sought to be protected derives independent economic value from not being generally known to other persons, and disclosure could cause substantial harm to each company. Further, the companies assert that the information has not been previously disclosed.

North Dakota Century Code § 44-04-18.4(2) authorizes protection for commercial, financial, proprietary, and trade secret information if privileged and if the information has not been previously publically disclosed. N.D.C.C. § 44-04-18.4(1). Commercial and financial information can be protected from disclosure if the information has not been previously disclosed and disclosure would impair the Commission's ability to obtain similar information in the future or would cause competitive injury to the person providing the information. N.D.C.C. §§ 44-04-18.4(2)(a) and 44-04-18.4(2)(b). Proprietary and trade secret information can be protected when the information derives independent economic value from not being generally known to or readily ascertainable by other persons, and is the subject of reasonable efforts to maintain its secrecy. N.D.C.C. §§ 44-04-18.4(2)(c) and 44-04-18.4(2)(d).

Further, the financial information provided to the Commission is considered confidential by the FCC under 47 C.F.R. §§ 0.0457 and 0.0459. The FCC also considers information in outage reports to be highly sensitive and protects the information from public dissemination in the Freedom from Information Act. N.D.C.C. §44-04-18(1), as interpreted by the North Dakota Attorney General, allows a state agency to provide confidentiality protection of information if the information is specifically protected under federal regulation. The outage information is protected under federal regulation.

Order

The Commission orders:

1. The 2010 applications of each company identified in the respective captioned cases for protection of information is GRANTED;
2. The 2011 applications of each company identified in the respective captioned cases for protection of information is GRANTED.
