RE: Application: Bear Paw Energy - Gas Processing Plant/Garden Creek Plant
Our File No. 13500

Dear Mr. Nitschke:

Attached is Bear Paw Energy's Certificate of Good Standing, along with our Certificate Application Fee for \$65,000.00.

This letter is also a minor addendum and revision to our Letter of Intent dated August 19, 2010. The original cost estimate included gathering line costs which are not part of the plant. (See Letter of Addendum attached.) We are aware that additional fees could be requested in accordance with N.D. Century Code, Chapter 49-22.

Respectfully,

William J. Delmore

Letter of Addendum

Our initial Notice of Intent for the Garden Creek Gas Processing facility contained a minor error. The initial investment in the State of North Dakota was stated as \$175 Million to \$200 Million. This figure includes a number of extraneous projects that will bring gas and liquids to the facility for processing and moving NGLs to our existing facility in Montana for shipment. Once these items are removed, the amount of investment in the Garden Creek facility is \$130 Million. We request to be allowed to pay the proper filing fee on the proper investment amount of the facility of \$65,000.
