North Dakota Public Service Commission  
Attn: Patrick Fahn  
600 E. Boulevard, Dept. 408  
Bismarck, ND 58505-0480

Subject: Response to North Dakota PSC staff on questions to application PU-10-568

Dear Mr. Fahn

The attached report is our response to the North Dakota PSC staff questions on the Bear Paw application for facility siting of the Garden Creek Gas Processing Plant at Watford City.

We have taken steps to provide the commission information on the items pertaining to environmental impacts, land use, waste energy recovery, plans for any future development in the area and Bear Paw's natural gas and NGL products being marketed and sold in the state. I would hope that you find our replies to you sufficient and if they are not, please contact myself or Bill Delmore at the phone or e-mail addresses provided.

Sincerely,

Russ Clark
