PUBLIC SERVICE COMMISSION

Re: Case No. PU-10-612
Certification Relating to Order Provisions – Transmission Facility Siting
Enbridge Energy, Limited Partnership

Dear Mr. Fahn:

Pursuant to Paragraph 31 of the Commission's Order dated May 05, 2011, which states as follows:

Enbridge agrees to provide the Commission with both an electronic and a paper copy of the design specifications for the construction of the transmission facility showing the location of the transmission facility as built, and will provide this information within three months of the completion of the construction. Enbridge also agrees to provide an electronic version of the as-built facility design specifications that can be imported into ESRI GIS mapping software within 3 months of the completion of the construction. This electronic map data must be referenced to the North Dakota coordinate system of 1983, North and/or South zones US Survey feet (NAD 83) UTM Zone 13N or 14N feet (NAD 83), or geographic coordinate system (WGS 84) feet. The vertical data must be in the appropriate vertical datum for the coordinate system used. All submissions must specify the datum in which the data was developed.

Enclosed are a complete set of as-built drawings and a CD containing all electronic data referenced above for the mainline construction that was completed in December 2011.

If you have any questions or require additional information regarding the submission of these materials, please feel free to contact me at 715-398-4609.

Sincerely,

A handwritten signature in blue ink that reads 'Timothy J. Byrnes'.
