On November 5, 2010, Enbridge  
Pipelines (North Dakota) LLC  
(Enbridge) filed an application for a  
certificate of corridor compatibility and  
an application for a route permit to  
authorize construction for approximately  
11 miles of 12-inch crude oil pipeline,  
to authorize construction of a new pumping  
station located near Kenaston, a new  
pump station near Lignite and station  
modifications at the existing Berthold  
Pump Station, all in Burke and Ward  
Counties, North Dakota, Case No.  
PU-10-612. The project is shown on  
the attached map. Enbridge also filed  
an application to waive and reduce  
procedures and time schedules required  
under North Dakota Century Code  
chapter 49-22 which require separate  
filings of applications for a certificate  
of corridor compatibility and a route  
permit, require separate notices of such  
applications, require separate hearings  
on such applications and require certain  
time schedules and requested that the  
applications for a certificate of corridor  
compatibility and a route permit be  
consolidated into one application.

On November 17, 2010, Enbridge filed  
an application for a certificate of corridor  
compatibility and an application for a  
route permit to authorize construction  
for approximately 56 miles of 16-inch

authorize construction of upgrades at its  
Beaver Lodge Station, Stanley Station  
and Berthold Station, all in Williams,

Mountrail, and Ward Counties, North  
Dakota, Case No. PU-10-613. The  
project is shown on the attached map.  
Enbridge also filed an application to  
waive and reduce procedures and time  
schedules required under North Dakota  
Century Code chapter 49-22 which  
require separate filings of applications  
for a certificate of corridor compatibility  
and a route permit, require separate  
notices of such applications, require  
separate hearings on such applications  
and require certain time schedules and  
requested that the applications for a  
certificate of corridor compatibility and
