RE: Enbridge Pipeline Route along south side of 61st St NW, Stanley, ND

Dear Mr. Fahn:

We understand the Public Service Commission is considering whether to approve the Enbridge pipeline route as it runs along the south side of 61st St NW at Stanley, North Dakota. As you know, a portion of this route is adjacent to our new County Fair Building.

We worked extensively with Enbridge personnel, and ultimately approved this route. We believe the extra safety precautions of burying the pipeline to a depth of 72 inches and additional wall thickness is in the public's best interest.

We also want to point out that the land where our County Fair Building sits is for county fair type events. This is not a county park or recreational area. In addition, the land between the County Fair Building and 61st Street NW, where the Enbridge pipeline will be located, is not used for public purposes as it already contains several utility facilities and also the right-of-way and ditch for the street.

The Mountrail County Commission encourages the PSC to approve Enbridge's request for this pipeline route along the south side of 61st Street NW. Thank you for your consideration.

Sincerely,

Arlo Borud, Chairman
Mountrail County Commissioners
