**RE: Case No. PU-10-630
Compliance Reporting**

In this proceeding, the Company applied to construct 32.1 miles of crude oil pipeline from its existing Trenton Station to the state border in order to interconnect with the existing Wascana Pipeline in Montana. Construction was completed in March 2014. The third party inspector hired by the Commission completed a final inspection of the project and filed its report with the Commission in June 2015.

This reports notes that the Company needs to submit the following information to comply with the Commission's order in this case based on the information contained in the inspection:

- The discharge permit for hydrostatic testing. (Order Point No. 4)
- Documentation of re-vegetation surveys and noxious weed surveys. (Order Point 17)

The third party inspection report can be found at:
<http://www.psc.nd.gov/database/documents/10-0630/151-020.pdf>

The Commission's order can be found at:
<http://www.psc.nd.gov/database/documents/10-0630/041-010.pdf>

Please forward your response to any information that is overdue within 30 days. For other information such as Tree and Shrub mitigation reports for future years, the Commission anticipates those responses will be filed in accordance with the Commission's requirements.

If you have any questions regarding this letter, please contact me at 701-328-4077.

Best regards,

A handwritten signature in black ink that reads "Patrick Fahn". The signature is written in a cursive style with a large, looping initial "P".
