Barr Engineering Co.  
Attn: Daniel Flo  
4700 West 77<sup>th</sup> Street, Suite 200  
Minneapolis, MN 55435

Dear Mr. Flo:

Reference is made to Department of the Army (DA) permit number NWO-2011-111-BIS, dated March 30, 2011, authorizing the construction of approximately 20.3-miles of a 8-inch diameter crude oil pipeline. This project is referenced in your DA permit application as the COLT Connector Pipeline. On August 17, 2011 this office received information indicating that there would be modifications to the proposed pipeline alignment at three separate locations. It is the Corps understanding that the remaining pipeline alignment, as submitted in your permit application, has not changed. These crossings are located in Sections 5 and 6, T155N, R98W; Sections 35 and 36, T155N, R97W; and Sections 35 and 36, T156N, R96W, Williams County, North Dakota.

Based on the information provided to this office, the Corps has determined that the alignment modifications are authorized by Department of the Army Nationwide Permit No. 12 found in the March 12, 2007 Federal Register (72 FR 11092), Reissuance of Nationwide Permits. This letter will document the administrative record to reflect the project modifications. All other terms and conditions of the original DA permit remain in full force and effect.

If you have any questions regarding this matter, please contact Jason Renschler, Project Manager or myself at the above address or phone at (701) 255-0015.

Sincerely,

Daniel E. Cimarosti  
Regulatory Program Manager  
North Dakota
