**Incident:**

- While trenching, a backhoe struck an unmarked 3" pipeline resulting in a kinking or "pinching off" of the line on 11/24. The damage did not result in a release. Hess was contacted immediately and indicated if no product was released they would investigate on 11/25. The line was assumed to be Hess based on prior discussions indicating unknown lines in the area and known locations of other operators indicated on the one call.
