NOTICE OF PUBLIC INPUT SESSIONS**

March 24, 2011

On December 20, 2010, Northern States Power Company (NSP) filed an application to increase its rates for electric utility service to provide additional 2011 test year annual revenue of \$19,773,000 or a 12.02% increase over current rates effective for electric service on and after January 19, 2011, case number PU-10-657. The 2011 proposed monthly increase for a residential customer using 750 kilowatt-hours in a winter month is \$7.08 and in a summer month is \$8.59.

On January 26, 2011, the Commission approved NSP's request for an interim rate increase based on the projected 2011 increase request. The interim rate increase of \$17,355,000, or 10.55% over current rates, became effective for electric service on and after February 18, 2011. NSP is required to refund interim rate amounts in excess of final rates approved by the Commission, including interest.

On February 8, 2011, NSP filed an application to increase its rates for electric utility service to provide additional 2012 test year annual revenue of \$4,226,000 or 2.57% effective for electric service on and after January 1, 2012, case number PU-11-55. The 2012 proposed monthly increase for a residential customer using 750 kilowatt-hours in a winter month is approximately \$1.75 and in a summer month is approximately \$2.00.

The combined effect of the 2011 and 2012 test year applications is a total request of \$23,999,000 or an overall increase of approximately 14.59%.

A public hearing on this matter will be held beginning August 9, 2011 at 8:30 a.m. CDT in the Commission Hearing Room, State Capitol, 12th Floor, Bismarck, North Dakota 58505. Issues to be considered in this matter are:

1. What is the value of NSP's property, used and useful, for the service and convenience of the public in North Dakota?
2. What is NSP's rate of return on its property, used and useful, for the service and convenience of the public in North Dakota?
3. What is a just and reasonable rate of return on NSP's property, used and useful, for the service and convenience of the public in North Dakota?
4. What rates and charges are necessary to provide a just and reasonable rate of return on NSP's property, used and useful, for the service and convenience of the public in North Dakota?
5. Are NSP's proposed rate schedules designed in such a manner that they result in a basis of charge to its customers that is just and reasonable without discrimination?
6. Other relevant information or proposals concerning the proceeding.
