NOTICE OF INTERVENTION DEADLINE, AND  
NOTICE OF PUBLIC INPUT SESSIONS**

**March 24, 2011**

On December 20, 2010, Northern States Power Company (NSP) filed an application to increase its rates for electric utility service to provide additional 2011 test year annual revenue of \$19,773,000 or a 12.02% increase over current rates effective for electric service on and after January 19, 2011, case number PU-10-657. The 2011 proposed monthly increase for a residential customer using 750 kilowatt-hours in a winter month is \$7.08 and in a summer month is \$8.59.

On January 26, 2011, the Commission approved NSP's request for an interim rate increase based on the projected 2011 increase request. The interim rate increase of \$17,355,000, or 10.55% over current rates, became effective for electric service on and after February 18, 2011. NSP is required to refund interim rate amounts in excess of final rates approved by the Commission, including interest.

On February 8, 2011, NSP filed an application to increase its rates for electric utility service to provide additional 2012 test year annual revenue of \$4,226,000 or 2.57% effective for electric service on and after January 1, 2012, case number PU-11-55. The 2012 proposed monthly increase for a residential customer using 750 kilowatt-hours in a winter month is approximately \$1.75 and in a summer month is approximately \$2.00.

The combined effect of the 2011 and 2012 test year applications is a total request of \$23,999,000 or an overall increase of approximately 14.59%.
