NOTICE OF CONSOLIDATED HEARING

September 1, 2021

A Consolidated Public Hearing on the applications in the cases enumerated above will begin Friday, October 13, 2021, at 8:30 a.m. central time, in the Commission Hearing Room, 12th Floor, State Capitol, Bismarck, North Dakota 58505.

On August 12, 2021, Allete, Inc. (Allete) filed with the Commission a request for an extension of time to equip the wind energy conversion facilities enumerated above with a functioning light-mitigating technology system. Light-mitigating technology system means aircraft detection lighting system, lighting intensity dimming solution technology, or a comparable solution capable of reducing the impact of nighttime lighting while maintaining night conspicuity sufficient to assist aircraft in identifying and avoiding collision with the facilities. Allete intends to develop a joint radar-based light-mitigating technology system across all the projects with a proposed target date for completing the system of April 30, 2022.

The issue to be considered in these consolidated proceedings is whether an extension of time should be granted based on technical or economic feasibility considerations.
