

Almanac

Perfect summer weather over the long weekend gave Independence Day celebrants plenty of opportunity for sunshine.

The sunny weather has also provided considerable drying, although many of the flood-closed roads remain impassable.

The Wildrose van went to Williston Wednesday. The van goes to Crosby, or Williston, every Wednesday. Anyone can ride for a small fee.

There will be no business meeting at the Senior Center in July. The monthly birthday party will be held Tues., July 19. Pauline Cain is the only one having a birthday this month, and she will be 99-years-old.

The Senior Center remodeling is now complete. There is new siding, and new shingles.

Now Showing

"Transformers: Dark of the Moon" rated PG-13 with Shia LaBeouf and Josh Duhamel.

The Autobots and Decepticons become involved in a perilous space race between the U.S. and Russia, and once again human Sam Witwicky (LaBeouf) has to come to the aid of his robot friends.

There are new characters too, including a new villain in the form of Shockwave, a longtime "Transformers" character who rules Cybertron while the Autobots and Decepticons battle it out on Earth.

The film was rated PG-13 for intense prolonged sequences of sci-fi action violence, mayhem and destruction, and for language, some sexuality and innuendo.

"Transformers: Dark of the Moon" plays Friday, Saturday and Sunday at 7:30 p.m.
