Mr. Darrell Nitschke  
Executive Director  
North Dakota Public Service Commission  
600 E. Boulevard, Dept. 408  
Bismarck, ND 58505-0480

Dear Mr. Nitschke:

In re: Whiting Oil and Gas Corporation  
Crude Oil Pipeline  
Billings County  
Case No. PU-11-102  
Our File No. 95-574-328

Enclosed for filing are the original and seven copies of the following:

- 1) Revised Routing Criteria Maps – Aerial Photography;
- 2) Revised Routing Criteria Maps - Topographic; and
- 3) Supplemental Survey Plats.

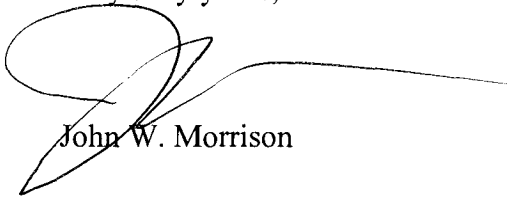

We are also including a CD containing the enclosures in PDF format.

Since the time of filing its application, Whiting has adopted three minor pipeline route re-alignments, all of which are entirely contained within the evaluation corridor identified in Whiting's application. The original and revised pipeline routes are shown on the attached route maps in two different colors. Whiting modified the beginning 0.2 miles and the ending 0.2 miles of the route to improve the constructability of the pipeline where it exits the Oil Terminal and

enters the Bridger Station tie-in. These modifications will reduce the number of line crossings inside the Oil Terminal and the Bridger Station facilities, making the installation easier and safer. The third re-alignment shifts the centerline of the pipeline 10 feet to the west between approximate mileposts 0.25 and 2.6 (this change is barely noticeable on the revised maps). This shift is necessary to accommodate a Stark County zoning set back requirement to achieve a 100-foot separation between the centerline of a county road or section line and the pipeline (the original route achieved a 90-foot separation). The Supplemental Survey Plats provide a more detailed view of the proposed route.

Please call should you have any questions. Thank you.

Very truly yours,

A handwritten signature in black ink, appearing to read "John W. Morrison", with a long horizontal flourish extending to the right.

enc.
