

anks (6-11) lost his second straight start, allowing five runs on six hits and two walks, while striking out four.

It had been a while since the Twins had a clutch hit. Prior to Valencia's RBI single, Minnesota was 0 for 24 hitting with runners in scoring position dating back to Sept. 3 and had scored two runs total in the past 42 innings over that stretch.

The Twins had Valencia up in the perfect position.

With two runners on, Joe Mauer was hit by a Danks' pitch to load the bases for Valencia.

Valencia — who had the team's only hit in the second game of Monday's doubleheader — is 12 for 22 with 27 RBIs in his career with the bases loaded.

Parmelee, playing in his sec-

an RBI after getting a rare day off on Tuesday.

Chicago squandered another prime opportunity in the eighth against Minnesota reliever Glen Perkins. Juan Pierre walked to start the inning and Ramirez followed with a double to right. Pierre scored on an RBI groundout by Pierzynski, but the tying run was left at third base when Alex Rios struck out. Rios then snapped his bat over his knee following the strikeout, which continues a disappointing season for the former All-Star outfielder.

Danks' struggles on the road continued. The left-hander is 2-8 on the road this season with a 5.09 ERA, and was coming off an 8-run, 4 2-3 inning outing at Detroit his last time.

slowed by an ankle injury last season. He'll be joined by free agent addition Darren Sproles and first-round rookie Mark Ingram.

"There'll be plenty of touches not only for Pierre, but for Mark and Darren," Saints coach Sean Payton said. "And it's our job to mix those up and also to let the running back get comfortable and get in a rhythm when he's in the game."

New Orleans will be without wide receiver Lance Moore, who has a nagging groin injury.

Class 1A, Region 4 opener.

"It's an awesome feeling for Jordan to pound the defense and wear them down, and then Hecker and I just use our speed and get the outside because they're already watching Strecker," Ewoniuk said.

With a veteran backfield — all three running backs and senior quarterback Jarek Haverluk are returning starters — Heart River head coach Dave Hendrickson has been able to expand the Cougars' playbook a bit.

"Their attitude is absolutely excellent," Hendrickson said. "The neat thing is they pick things up. I'm not exaggerat-

was nice."

They're also all steadily improving every day, Hen-

the box, they're going to stop our running game. We've got to develop a passing game."

STATE OF NORTH DAKOTA PUBLIC SERVICE COMMISSION
Whiting Oil and Gas Corporation
Crude Oil Pipeline - Billings and Stark Counties
Siting Application
Case No. PU-11-102
OAH File No. 20110326
NOTICE OF FILINGS AND NOTICE OF HEARING
August 30, 2011
On July 11, 2011, Whiting Oil and Gas Corporation (Whiting) filed an application for a certificate of corridor compatibility and an application for a route permit to authorize the construction and operation of 6.8 miles of 8-inch crude oil pipeline located 6 miles northeast of Belfield, in Billings and Stark Counties, North Dakota. The is shown on the attached map. Whiting also filed an application for waivers of procedures and time schedules including:
• Procedures that require separate filings of applications for a certificate of corridor compatibility and a route permit,
• Procedures that require separate notices of such applications,
• Procedures that require separate hearings on such applications.
The Commission finds the applications are complete.
A Public Hearing on the applications is scheduled to begin at 10:00 a.m. (Mountain time) (11:00 a.m. Central time) on October 10, 2011 at the City Hall, 107 Second Avenue Northeast, Belfield, North Dakota. The issues to be considered in Whiting's application for waiver of procedures and time schedules:
1. Are the proposed facilities of such length, design, location, or purpose that they will produce minimal adverse effects and that adherence to applicable procedures and time schedules may be waived?
2. Is it appropriate for the Commission to waive any procedures and time schedules as requested in the application?
The issues to be considered in

Whiting's applications for certificate of corridor compatibility and route permit:
1. Will the location, construction, and operation of the proposed facilities produce minimal adverse effects on the environment and upon the welfare of the citizens of North Dakota?
2. Are the proposed facilities compatible with the environmental preservation and the efficient use of resources?
3. Will the proposed facility locations minimize adverse human and environmental impact while ensuring continuing system reliability and integrity and ensuring that energy needs are met and fulfilled in an orderly and timely fashion?
