Berthold Station Expansion Project – Ward County
Siting Application

Case No. PU-11-232

NOTICE OF FILING AND NOTICE OF HEARING

February 15, 2012

On December 21, 2011, Enbridge Pipelines (North Dakota) LLC (Enbridge) filed applications for a certificate of corridor compatibility and a route permit to authorize construction for new station facilities, pumping units, tankage, and associated station piping in Ward County, North Dakota, as shown on the attached map. The project will take place at the current Berthold Station and east and south of the current Berthold Station in Ward County, North Dakota near the city Berthold. Enbridge also filed a request for waiver of procedures and time schedules established under North Dakota Century Code Chapter 49-22 and North Dakota Administrative Code Chapter 69-06-06. The Commission finds the applications are complete.

A **Public Hearing** on the applications is scheduled to begin **April 3, 2012 at 10 a.m. CDT, Berthold Sportsman's Club, 210 Main Street, Berthold, North Dakota 58718**. The issues to be considered are:

1. Is the proposed facility of such length, design, location, or purpose that it will produce minimal adverse effects, or, does a demonstrable emergency exist which requires immediate construction and that adherence to the procedures and time schedules would jeopardize the utility's system?
2. Will the location, construction, and operation of the proposed facilities produce minimal adverse effects on the environment and upon the welfare of the citizens of North Dakota?
3. Are the proposed facilities compatible with the environmental preservation and the efficient use of resources?
4. Will the proposed facility locations minimize adverse human and environmental impact while ensuring continuing system reliability and integrity and ensuring that energy needs are met and fulfilled in an orderly and timely fashion?
