RE: Case No. PU-11-232, Enbridge Pipelines (North Dakota) LLC
Berthold Station Expansion Project, Siting Application
Certification Letter for Tank Construction on Berthold West Property

Dear Sirs:

In accordance with North Dakota Century Code § 49-22-03(3) (2009), this letter is to notify the North Dakota Public Service Commission ("Commission") that Enbridge Pipelines (North Dakota) LLC ("Enbridge") intends to construct a tank for storage of crude petroleum at its Berthold Station, located in Ward County, North Dakota. Enbridge requests that the Commission and its Staff acknowledge receipt of this certification letter and schedule a Preconstruction Conference at its earliest convenience. Enbridge intends to commence civil construction at Berthold Station as early as October 15, 2012.

Enbridge previously applied for and received by Order filed on May 30, 2012, a Certificate of Corridor Compatibility for Transmission Facility No. 135 and a Route Permit for a Transmission Facility No. 146 which granted authority to expand the existing Berthold Station. (Case No. PU-11-232) Environmental Assessments and Cultural Resource Surveys were provided. This Certification Letter covers an additional 150,000 barrel tank not included in Case No. PU-11-232.

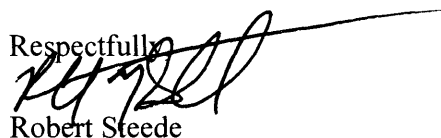

Based on the attached drawing (2840-BH-PSC-00045) Enbridge intends to construct the following facilities at its existing Berthold West property in order to increase storage capacity:

- Install one 150,000 barrel tank;
- Install new connection from the fill manifold to the tank and associated valves;
- Install new connection from the tank to the suction manifold and associated valves;
- Additions to the existing Electrical Control Building to support the new tank and manifold valves;
- Extension of the fire suppression system on and around the tank;
- Civil grading and berm work to accommodate the new tank;
- 1100 feet of 16" pipe; and
- 1100 feet of 24" pipe.

Enbridge certifies that this construction will comply with the terms and conditions of the Order granting Certificate of Corridor Compatibility and Route Permit of May 30, 2012. The intended construction will be restricted to those lands previously Certificated and Permitted by the Commission. As such, the North Dakota State Historic Preservation Officer, North Dakota Game Fish Department, United States Fish and Wildlife Service, U.S. Army Corps of Engineers determinations remain applicable. Additionally, Enbridge certifies that its intended construction activities will not affect any known exclusion or avoidance area, as further detailed in North Dakota Administrative Code 69-06-08-02 (2009). Also, Enbridge certifies that it will comply with all the rules and regulations of all other agencies having jurisdiction over any phase of construction described herein. An Air Permit to Construct will be required for this project. An application was filed with the North Dakota Department of Health on September 27, 2012. A copy of the permit will be forwarded to the Commission as soon as it is received. Finally, Enbridge certifies that there are no "affected landowners" for purposes of this construction; as such, no waivers were required.

Enbridge sincerely appreciates the time and attention the Commission has given this matter. Enbridge politely requests the scheduling of a Preconstruction Conference, prior to October 12, 2012.

Respectfully,

Robert Steede

General Manager, North Dakota

CERTIFICATION OF APPLICANT PURSUANT TO N.D. CENT.CODE 49-22-03(3)

ENBRIDGE PIPELINES (NORTH DAKOTA) LLC

I, Robert Steede, a duly authorized agent of Enbridge Pipelines (North Dakota) LLC ("Enbridge"), do hereby certify under oath:

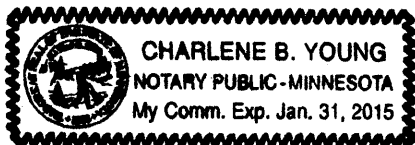

1. That Enbridge and/or its legal predecessor(s) in interest constructed and developed and will construct and develop facilities at its Berthold Station located in Ward County, North Dakota, most recently under Certificate of Corridor Compatibility and Route Permit issued by the North Dakota Public Service Commission ("ND-PSC") on May 30, 2012, Docket No. PU-11-232;
2. That the construction activities to commence on or about October 15, 2012, shall take place upon land owned in fee by Enbridge and shall be restricted to the geographical location and within the man-made boundaries at Berthold Station.
3. That no additional lands have been acquired adjacent to the existing Enbridge facilities and that any additional lands acquired adjacent to existing Enbridge facilities were captured and properly sited pursuant to Docket No. PU-11-232.
4. That the construction activities to take place will not affect any known exclusion or avoidance area; and
5. That Enbridge will comply with reasonable requests of the ND-PSC in executing construction at Berthold Station, including attending a Preconstruction Conference Call with the ND-PSC Staff, informing ND-PSC of the start of construction, submitting weekly reports on construction, providing copies of all applicable permits, and constructing and operating the facility in accordance with applicable safety requirements.

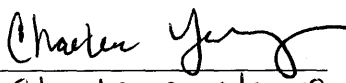

Dated at Superior, Douglas County, Wisconsin this 28th day of September 2012.

Robert Steede

This instrument was acknowledged on this 28th day of September 2012, by Robert Steede on behalf of Enbridge Pipelines (North Dakota) LLC.
