

## MEMORANDUM

**To:** Commissioners Clark, Kalk and Cramer  
**Fr:** Jerry Lein  
**Da:** September 6, 2011  
**Re:** MDU QF Tariff Revision, Case No. PU-11-558

MDU has filed a revision to its Cogeneration and Small Power Production Rates 95 and 96. These rate schedules set forth amounts MDU would pay for purchases from PURPA Qualifying Facilities (QFs) with generating capacity of 100 kW or less under Rate 95 and peaking QFs with 1,000 kW or less under Rate 96.

The revision restates the metering charge from a monthly rate to a daily rate, consistent with the daily Basic Service Charges in other MDU rate schedules that were similarly restated from monthly to daily charges a couple years ago.

MDU has two customers operating wind generators under Rate 95, and no customers under Rate 96. Since the amount of the charge is unchanged, there should be no effect on those customers.
