Mr. Darrell Nitschke  
Executive Director  
North Dakota Public  
Service Commission  
600 E. Boulevard, Dept. 408  
Bismarck, ND 58505-0480

Dear Mr. Nitschke:

RE: Enbridge Pipelines (North Dakota) LLC  
Little Muddy Station Connection Project  
Docket No. PU-11-606  
Our File No. 31-411-07

Enbridge Pipelines (North Dakota) LLC (hereinafter "EPND") encloses for filing, the original and ten copies of the following permit to supplement its *Certificate of Corridor Compatibility and Route Permit* application in the above-referenced proceeding.

Activity	Water Appropriation Permit (ND State Water Commission)	Water Discharge Permit (ND Department of Health)
Little Muddy Tank, Piping and Mainline Hydrostatic Testing	Not Applicable (using private well currently permitted)	NDG070335

Please feel free to call me with any questions.

Very truly yours,

Brian R. Bjella

Re: NDPDES Permit No. NDG070335

We have received your "Application for Permit to Discharge - NDPDES Industrial-Short Form C" and have granted authority to discharge under the General Permit for Temporary Dewatering/Hydrostatic Testing Permit NDG070000. Your facility has been assigned permit no. **NDG070335**. This permit has been issued by the North Dakota Department of Health (NDDoH) with the understanding that all other applicable permits and permissions have been obtained for the start of the following project. The application indicates that the discharge(s) will consist of ground water from the testing of the items listed below, which are all newly constructed:

<u>Discharge Point</u>	<u>Volume (Gallons)</u>	<u>Location</u>	
001H	≈ 22,671	Station Piping	TWP 156N, RNG 100W, SEC 17; Williams County
002H	≈ 1,680,000	Tank Test	TWP 156N, RNG 100W, SEC 17; Williams County
003H	≈ 134,648	10" Pipeline	TWP 156N, RNG 100W, SEC 17; Williams County

**All discharge points shall be inspected daily.** On a daily basis record the total volume of discharge and make a visual inspection for Oil and Grease. Analytical parameters for pH and Total Suspended Solids (TSS) shall be waived for this project. The parameter for Chlorine shall be tested only if the water source has been chlorinated. The parameter of Oil and/or Grease is waived unless sheen is observed in the discharge; if observed then collect a sample for Total Petroleum Hydrocarbon (TPH). The department shall be contacted on all findings of Oil and Grease. All discharges made directly to a surface water body or wetland shall be inspected closely so as to minimize any turbidity issues. Best Management Practices (BMPs) must be used to minimize the impact of the discharge.

**ADDITIVES:** No additives were reviewed for this project.

Enclosed are Discharge Monitoring Report (DMR) forms for your use. If someone else is responsible for the submittal of the DMRs, please forward this letter and the enclosed forms to them. The reports cover three months; the dates and location have been filled out. If no discharge occurs during the reporting period, check "No" in section one. The reports must be post-marked by the last day of the month following the end of each reporting period. All original DMR forms should be sent to NDDoH and a copy should be kept for your files. **EPA no longer requires a copy of the DMR form.**

If any other testing is conducted during this project, copies of the results of any such test should be forwarded to the Department. **Should you wish to no longer be covered under this permit, you must submit a written request to terminate and cite the reasons for termination.** Coverage shall be maintained until a written notification to release has been issued to the permittee by NDDoH. Should you have any questions about your permit or how to complete the DMRs, please contact me at (701) 328-5234.

Sincerely,

Marty Haroldson
