Submittal

Section A: Energy Conversion Facility

The Ashtabula Wind II Wind Energy Center (“Ashtabula II”) is located approximately 10 miles South of Cooperstown in Griggs and Steele Counties, ND. Ashtabula II consists of 80 GE 1.5 xle wind turbines and has been in production since 2009. Ashtabula II contributes approximately 120 MW of renewable energy to the power grid.

1. FERC Form 67 was discontinued in 1982
2. Projected retirement date: December 2038

Section B: Energy Conversion Facilities Under Construction

1. Description: none
2. Status and Timetable: none

Section C: Proposed Energy Conversion Facilities on Which Construction is Intended Within the Ensuing Five Years

1. Location: none contemplated

2. Size and Type: none contemplated
3. Proposed Timetable: none contemplated
4. Pollutants: none contemplated

Section D: Proposed Energy Conversion Facilities During the Next Ten-Year Time Period

1. Location: none contemplated
2. Size and Type: none contemplated
3. Proposed Timetable: none contemplated

Section E: Existing Transmission Facilities (Electric)

1. FERC Form 12: discontinued in 1985
2. Commenced commercial operations December 2009
3. Projected Retirement Date: December 2038

Section F: Existing Transmission Facilities (Pipeline)

1. Location: not applicable
2. Type and Capacity: not applicable
3. In service dates: not applicable
4. Projected retirement dates: not applicable

Section G: Proposed Transmission Facilities on Which Construction is Intended Within the Ensuing Five Years (Electric)

1. Location: none contemplated
2. Geographic Service Area: none contemplated
3. Facility Description: none contemplated
4. Proposed Timetable: none contemplated

Section H: Proposed Transmission Facilities on Which Construction is Intended Within the Ensuing Five Years (Pipeline)

1. Location: not applicable
2. Geographic Service Area: not applicable
3. Facility Description: not applicable
4. Proposed Timetable: not applicable

Section I: Proposed Transmission Facilities During the Next Ten-Year Time Period (Electric and Pipeline)

1. Location: none contemplated
2. Probable Type: none contemplated
3. Proposed Timetable: none contemplated

Section J: Regional Coordination

1. Ashtabula II has a nameplate capacity of 120 MW and sells 69MW of the output to Minnkota Power Cooperative, Inc. and 51MW to Great River Energy under long-term

power purchase agreements to meet the needs of their customers and member cooperatives.

2. Not Applicable
3. Not Applicable
4. Not Applicable

Section K: Environmental Information

1. Ashtabula II conducted multiple environmental studies prior to construction of the facility and met all environmental requirements of all federal, state, and local agencies.

Section L: Projected Demand for Services

1. Ten-year historical growth and forecast: Not applicable
2. Meet projected needs: Not applicable
3. Identify load centers, fuel sources: Not applicable
