RE: Minnesota Power's Application for a Corridor Certificate
and a Route Permit for a 230 kV transmission line in
Oliver, Mercer and Morton counties, North Dakota
Case No. PU-11-620

Dear Mr. Nitschke:

In compliance with the North Dakota Public Service Commission's Order in the above-referenced Docket, please find enclosed hard copy and electronic versions of the facility alignment plan and profile drawings and an electronic version of the as-built facility that can be imposed into ESRI GIS mapping software. Construction of the 230 kV transmission line is now done with the completion of the right-of-way restoration.

Please contact me at (218) 355-3515 or dmccourtney@allete.com if you have additional questions.

Sincerely,

Daniel McCourtney
