Re: Heskett 88 MW Simple Cycle Combustion
Turbine & Natural Gas Pipeline –
Case Nos. PU-11- 631 and PU-11-680

Montana-Dakota Utilities Co. (Montana-Dakota), a Division of MDU Resources Group, Inc., herewith submits an original and two copies of its Revised Attachment A for the Tree and Shrub Mitigation Plan in compliance with the Tree and Shrub Mitigation Specifications attached and part of the Commission's Orders in Case Nos. PU-11-631 and PU-11-680 issued on December 21, 2012 and August 21, 2013 respectively.

The revised attachment now identifies the plantings as trees or shrubs that were removed and are being replanted. As noted in the original proposed Tree and Shrub Mitigation Plan filed on February 25, 2014, the Morton County Soil Conservation District will determine a suitable replacement if a species of plant needs to be modified. The cranberry plant listed as tree on the Vogel property in the March 20th submittal has been changed to a shrub. The Heskett Plant Site will be adding 68 more Blue Spruce, bringing the total to 122. The changes are reflected on the Revised Attachment A.

In summary, 329 trees and 616 shrubs were removed to be replaced with 658 trees and 1,550 shrubs.

Please acknowledge receipt by stamping or initialing the duplicate copy of this letter, attached hereto, and returning the same in the enclosed self-addressed, stamped envelope.

Sincerely,

Tamie A. Aberle
Director of Regulatory Affairs
