**RE: 100 MW Clean Energy #1 Wind Project-Mercer & Morton Counties
Case No. PU-11-662**

Dear Mr. Kahl:

In compliance with the North Dakota Public Service Commission's ("Commission") August 29, 2012 order, point 35, in the above referenced Case Number, as well as Item 1 in the Commission's June 15, 2021 Notice of Noncompliance, ALLETE Clean Energy ("Company") hereby submits the design specifications for the construction of the energy conversion facility showing the location of the facility as built within three months of completion of construction.

In reference to Item 2 in the Notice of Noncompliance, the Company will comply with the Commission's March 13, 2019, simplified version of the Tree and Shrub Mitigation Specifications. Landowner response and surveyor availability has delayed ALLETE Clean Energy's ability to file its proposed mitigation plan by July 15, 2021. As communicated to Commission Staff, the Company will file by the mitigation plan by August 15, 2021 and request an applicable site permit amendment.

ALLETE Clean Energy apologizes for not meeting these compliance requirements and will ensure future compliance items are timely submitted to the Commission.

If you have any questions, or need additional information, please contact me at 218-723-3963 or dmoeller@allete.com.

Yours truly,
