Subject: Resume Work On Heskett Station Project

Pat: I wanted to give you a heads up that we will be resuming work on the Heskett 10 inch Pipeline Project next week on April 8th. We will be bringing the contractor in on April 8th complete any updates for training or testing that need to be completed and began completion of the station work at both ends of the project and hydro testing of the main line and nitrogen testing of the two stations. We will not be doing any work on the right of way until on or about the week of April 28th allowing time for the ground to warm up and firm up enough for to complete seeding, rock picking, tree planting, clean up, etc. that need to be completed on or about that time. If you have any questions or comments please don't hesitate to give me a call.

David Yexley P.E.
Director Business Development & Special Projects
