Dear Sirs;

Please find this update for the Week Ending 11-02-2012. The Electrical Collection System has been completed from the LRSC Campus to the Wind Turbine location and foundations are complete and ready for installation. The DTU, hub, and three tower sections have arrived on site and erection will begin in the coming days. The turbine blades and machine hub are scheduled to arrive Monday, 11-05 and these will complete the expected equipment deliveries. An Executive Summary and updated Schedule will be provided for the Week Ending 11-09. If you should have any questions or require additional details, please call or reply. Regards, Joe

Dear Sirs,

In accordance with our approved Siting Application, please find this Notice of our *Intent to Start Construction*. We would also like to schedule our required Pre-Construction Meeting, if applicable, with a Commission Staff Member and the Third Party Construction Inspector at your earliest convenience. If you choose to waive your requirement to attend the Pre-Construction Meeting, I can begin sending Weekly Reports as required. Regards, Joe
