Basin Electric Power Cooperative
AVS to Neseet 345-kV Transmission Project Siting Application
PU-11-696

Dear Mr. Nitschke:

Enclosed you will find a request to add an additional structure for the AVS to Neseet 345-kV Transmission Project. The request has been filed electronically to the PU-11-696 docket.

The additional structure request is within the established corridor as reflected in the Second Amended Corridor Certificate No. 152. The need for the additional structure is to maintain adequate clearance between a distribution cooperative's service line and the 345-kV transmission line. The new structure will be referred to as 298-320A. Structure 298-320A is located 360 feet northwest of Structure 298-320 and 410 feet southeast of Structure 298-321.

For inquiries regarding this request, please contact me at (701) 557-5635 or by e-mail at cmiller@bepc.com.

Sincerely,

A handwritten signature in black ink that reads "Cris Miller".

Cris Miller
Senior Environmental Project Specialist
