Did the excavator use reasonable care to maintain locate marks for the life of project?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Unknown <input checked="" type="checkbox"/> N/A

**PART H – DESCRIPTION OF EVENT**

**Description of Event**

Excavator damaged pipeline while exploring for scoria in the field. Damage went undetected for several weeks before local resident noticed oil on the surface. Summit has been working with Belle Fourche and the ND Department of Health on remediation.

After Belle Fourche arrived on the scene and Summit had been informed of the damage they were again observed exploring for scoria in the same vicinity without a locate. They reported to Belle Fourche that the "landowner had told them there was nothing in that area"

Much of the remediation is being billed directly to Summit so Belle Fourche has not and will not see the totals on damage and remediation.
