

ditch hay cutters and adjacent landowners

This notice is to inform all Grant County landowners and those who cut hay in road ditch right-of-ways. Throughout the summer, into fall, the Grant County Weed Board sprays chemical into road ditches for the control of noxious weeds. Some of these chemicals can have a residue on a plant for up to two weeks, depending on conditions. This residue can pass through the animal into the manure, and could cause crop damage in certain situations. It is impossible for us to inform you exactly where we are spraying on a weekly basis. A lot depends on the weather for us as well. It is your duty, as a landowner or a ditch hay cutter, to check with us if you have any concerns. This notice is being given according to ND State Pesticide Law. We hope this does not inconvenience anyone. This is for your protection as well as ours. It is better to be proactive ahead of time than reactive after a problem occurs. Contact Merlin Leithold, weed officer, at 701-220-7908 (cell) for any additional concerns or questions.
