**If you're not in Cavalier
this weekend for the
Motorcycle Ride-In
you're in the
wrong place!!**

**Think overall athletes aren't your problem?
Take a look at your cable bill.**

Cable TV programmers run the show. They charge big fees for channel, place requirements on channel placement of their programming, and have virtually no service-quality requirements... and they are continually increasing their pricing. Currently 67% of Polar's Cable TV rate is made up of programming costs.

Sports channels account for about 30% of our programming costs. One of the top rated sports channels charges the highest per-household fee of any cable channel. They are basically passing on the costs of the large sums they must pay out to the sporting leagues, who in turn pay the athletes salaries. All of this puts you, the cable subscriber, in the bantler.

Nobody's putt is worth that much!
