PUBLIC SERVICE COMMISSION

Re: North Dakota Intrastate Access Group-North Dakota Tariff No. 1
Issuing Carriers-Application for Trade Secret Protection

Dear Mr. Nitschke:

On June 11, 2012, John Staurulakis, Inc. (JSI) intended to file an original and seven (7) copies of an Application for Trade Secret Protection (Application). Unfortunately, JSI inadvertently filed Attachment 1 and Attachment 2 of the Application, but inadvertently failed to include a copy of the Application itself. Accordingly, included with this letter you will find an original and seven (7) copies of the Application with Attachments. This filing is being filed today on behalf of the Issuing Carriers indicated in Attachment 2 to this Application, also referred to as the North Dakota Intrastate Access Group. This Application filing is being made in conjunction with the new Intrastate Access Tariff that is also being filed today on behalf of the Issuing Carriers¹

As you know, in a Letter Order issued by the North Dakota Public Service Commission (NDPSC) on May 3, 2012, the Commission delineated a list of specific supporting information that must be provided with this tariff filing. The necessary supporting information as outlined in that Letter Order is the subject of the enclosed Application, and is therefore being submitted today as Attachment 1 to the Application for Trade Secret Protection.

As noted above, JSI is mailing a hard copy of the Application filing to the Commission today, via overnight mail, for filing with the Commission on Thursday, June 14, 2012.

¹ The purpose of this filing is to reflect recently enacted FCC rules pursuant to the FCC's Report and Order and Further Notice of Rulemaking, Docket No. WC Docket No. 10-90, *et al*, FCC 11-161 (Released November 18, 2011). The FCC's Rules in this Order became effective on December 29, 2011.

Mr. Darrell Nitschke
Executive Secretary

With that mailing, you will find enclosed a copy of this transmittal letter marked "File Stamp Copy" to be stamped and returned to JSI as confirmation that these hard copies of the filing have been received by the Commission. Please return the stamped copy of this transmittal letter in the envelope provided for this purpose.

I apologize for the oversight. If there are any questions regarding this filing, please feel free to contact me at (301) 459-7590 or at kcartmell@jsitel.com.

Sincerely,

Kenneth T. Cartmell
Manager-JSI Regulatory Affairs

APPLICATION FOR TRADE SECRET PROTECTION

COMES NOW, North Dakota Intrastate Access Tariff No.1-Issuing Carriers ("Issuing Carriers") and respectfully moves the Commission for entry of a trade secret protective order under § 69-02-09-01 of the North Dakota Administrative Code. The purpose of the requested protective order is to protect against public disclosure of trade secret information as defined by NDCC § 47-25.1-01(4).

1. A general description of the nature of the information sought to be protected.

The financial and rate information requested to be submitted with the filing of the North Dakota Intrastate Access Tariff reflects detailed financial, minutes-of-use, demand, revenue, and rate design information that is only known to the companies denoted as Issuing Carriers, and their authorized agents. This information submitted with this Application as Attachment 1, is highly confidential, in that it is only maintained by each Issuing Carrier/Company and not available through any source other than the companies or their authorized agents. Furthermore, this information could have economic value to potential competitors, and in a competitive telecommunications marketplace, this type of information is highly sensitive and its public disclosure would place the Issuing Carriers at a competitive disadvantage.

2. Explanation of why the information derives independent economic value, actual or potential, from not being generally known to other persons.

The information could have economic value to potential vendors, contractors, and suppliers who may desire to supply components of services being offered by the Issuing Carriers. Additionally, competitors may wish to “cherry pick” and based on this information, decide to target certain parts of the various Issuing Carriers service territories where the revenue potential is the greatest. Competitors, could use such information against Issuing Carriers' interests in the course of submitting proposals as well as in developing their own business plans.

3. An explanation of why the information is not readily ascertainable by proper means by other persons.

The confidentiality of the information has been maintained by the Issuing Carriers. The information is not disclosed to the public or to persons other than employees or authorized agents of Issuing Carriers who need to know the information to fulfill their responsibilities in connection with the project or to third persons pursuant to agreement to maintain the confidentiality of the information.

4. A general description of the persons or entities that would obtain economic value from disclosure or use of the information.

Competitive Local Exchange Carriers, potential equipment and material vendors, contractors, and other suppliers of telecommunications services would obtain economic

Application for Trade Secret Protection

Page 3

value from disclosure of the costs, demand, minutes-of-use, and other confidential information.

5. A specific description of known competitors and competitors' goods and services that is pertinent to the tariff or rate filing.

Competitive Local Exchange Carriers, potential equipment and material vendors, contractors, and other suppliers of telecommunications services would obtain economic value from disclosure of the demand, minutes-of-use, and other confidential information.

6. A description of the efforts used to maintain the secrecy of the information.

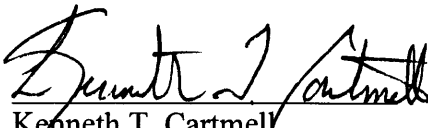

The confidentiality of the information has been maintained by the Issuing Carriers. The information is not disclosed to the public or to persons other than employees or authorized agents of Issuing Carriers who need to know the information to fulfill their responsibilities in connection with the project or to third persons pursuant to agreement to maintain the confidentiality of the information.

Application for Trade Secret Protection

In accordance with § 69-02-09-02 of the North Dakota Administrative Code, one copy of the trade secret material is provided in the enclosed sealed envelope which is labeled: ATTACHMENT-1-TRADE SECRET — PRIVATE.

Respectfully submitted on June 13, 2012.

JOHN STAURULAKIS, INC.
