**RE: Onvoy Filing to Revise its' North Dakota Intrastate Access Tariff per the FCC Report and Order FCC 11-161.**

Dear Mr. Nitchke:

Enclosed for filing with the North Dakota Public Service Commission are revised Onvoy, Inc. Intrastate Switched Access Tariff pages for North Dakota. These revisions implement the Federal Communications Commission's (FCC) order dated November 18, 2012 on Universal Service and Intercarrier Compensation Reform. The FCC's order requires CLECs in the first phase to reduce intrastate terminating access charges by 50% of the differential between the carrier's intrastate and interstate rates effective July 1, 2012. Documentation is included showing the calculations used to determine Onvoy's transitional intrastate switched access charges. The revised tariff pages included in this filing are as follows:

New Page Number	Cancels Page Number
3 <sup>rd</sup> Revised Page 2	2 <sup>nd</sup> Revised Page 2
1 <sup>st</sup> Revised Page 47	Original Page 47

Onvoy proposes to continue to use its intrastate rate structure which also happens to mirror its' interstate rate structure. Onvoy has marked the documentation spreadsheet as Confidential. Onvoy is a privately held company and considers the 2011 demand volume of minutes and revenues figures to be confidential.

In addition to these proposed transitional rates, Onvoy proposes to eliminate one switched access rate element from its tariff that has never been charged. On 1<sup>st</sup> Revised Page 47, Onvoy has deleted the monthly recurring charge of \$4.67 for an Access Tandem DS1 Port.

Respectfully Submitted,
