13 February 2013

Mr. Darrell Nitschke, Executive Director
North Dakota Public Service Commission
600 East Boulevard, Dept. 408
Bismarck, ND 58505-0480

RE: Compliance Filing for Transmission Facility Route Permit
Prairie Substation to Ramsey Substation 230 KV "GD" Transmission Line
Case Number PU-12-398

Dear Mr. Nitschke:

On December 12, 2012, the Commission issued Certificate of Compatibility No. 140 to Great River Energy. Great River Energy respectfully submits (via efilings and US Postal) the following:

- As required by Order Provision 4, copy of the road permit associated with the transmission facility (see attached).
- As required by Order Provision 33, Plan and Profile of the Lakota Segment (see attached paper copy for Lakota and electronic copies for both Lakota and Crary). Construction will start on this segment first.

The Crary Plan and Profile is still in engineer review for certification and will be submitted as soon as that review is complete. Thank you for consideration in this matter. If you have any questions, I can be reached at 763-445-5215 or by email at mparlow@greenergy.com.

Respectfully submitted,

GREAT RIVER ENERGY

Marsha Parlow
Transmission Permitting Analyst
