

Project Inspection Report

Project Name: Basin Transload Lignite Pipeline Project 10" Crude Line, Burke County ND

PSC Case Number: PU-12-775

Inspector: Tyler Danielson, E3 Environmental, LLC

Date: 11/13/2014

Time: 9:00 am

Observations / Corrective Actions:

Mr. Danielson conducted a final inspection to confirm that the project has reached final stabilization. Mr. Danielson identified that the project has reached final stabilization, however the following locations to still have straw wattles in place.

STA 352+49	STA 347+85	STA 311+00	STA 309+50	STA 248+69	STA 163+00
STA 155+00	STA 150+00	STA 134+91	STA 80+00	STA 40+00	STA 30+00

These ECDs may need to be removed per landowner requests otherwise these straw wattles may be allowed to degrade naturally over time.

Photographs:

Photo 1: Straw wattle still present at STA 347+85 and 352+49, straw wattles may be left in place provided they degrade naturally over time.
