**Subject:** NOV 1201 Abatement Period Extension

Paula & Brian,

We have reviewed your request for an extension of the abatement period for NOV 1201 to construct sumps 99E and 99W and associated diversions. Your request to extend the abatement period for the construction of the construction of this structures until November 30 is approved as submitted. We have not had a chance to review the revised diversion plans yet, so approval to construct the diversions is not granted at this time. We will try to complete our review of the revised diversion designs in the next few days and will notify you when our review of the diversion designs is complete. Please contact us if you have any questions.
