Dear Mr. Deutsch:

I am writing in regards to our reclaimed land in sec 20-146-82 within permit NAFK-8705 at the Falkirk Mine. As I stated to the inspectors when they did there field inspection I feel this land is ready for final bond release. Yes there is some surface pooling but for the spring we had this field is not out of line with our non-reclaim land. This year we planted crops till mid-June and still had 6% of our total land that didn't get seeded. The field in sec 20 was right on pace with that. I do not feel the Falkirk Mine needs to fill in the low areas in the field and that we should precede with final bond release.

Sincerely,

Laurance Heger  
Owner
