Title

Priority: 3 Project: 2013 Damage Prevention Awareness-Billboard advertising

Development and/or conduct of damage prevention awareness campaigns - Advertisements

Has this activity been performed previously? If yes, what were the results? Provide sufficient details about the effectiveness of this project in order to support the approval of this project for another year.

All previous grant awards have been used for damage prevention awareness including 811 awareness advertising campaigns in the State of North Dakota. The effectiveness and results are difficult to judge as we are not aware of a method to quantify the impact of this specific activity. Chad Olson, representative from North Dakota One Call, has repeatedly stated that the billboards have produced a noticeable effect. The billboards that have been placed around the state are very well done, very visual and attract attention while presenting the desired message. Chad continues to receive positive feedback from individuals who have seen the billboards and taken the time to mention their effectiveness. It would be great if additional funding was available to intensify the advertising campaign in the Williston Basin region of North Dakota without reducing the campaign level in other parts of the state. The Williston Basin region, especially the Bakken formation will continue to experience record levels of energy infrastructure construction well into the future.

What do you plan to do with the 2013 requested funds for this project? If you have entered costs under the "Other" budget category, you must explain those costs here.

In the past, grant funds have been used to procure advertising on approximately 18 to 20 billboards per year. Billboards have been placed in or near the following cities: Beulah, Bismarck, Bowman, Carrington, Devils Lake, Dickinson, Fargo, Garrison, Glen Ullin, Grand Forks, Jamestown, Killdeer, Mandan, Minot, Rugby, Towner, Valley City, Wahpeton, Washburn, West Fargo, and Williston. During the 2012 advertising campaign, billboards were placed in or near Beulah, Bismarck (2), Bowman, Carrington, Devils Lake, Fargo (2), Glen Ullin, Grand Forks (2), Jamestown, Killdeer, Mandan, Minot (2), Towner, Valley City, Wahpeton, and Washburn. Grant funds for 2013 will again fund a billboard advertising campaign throughout the State of North Dakota. Funds will again be used to procure advertising on approximately 18-20 billboards. Billboards are strategically placed to attract the attention of excavators, including residents and businesses, utilities and motorists across the state. The billboards are placed in the major markets throughout North Dakota with emphasis on the areas of heightened activity in construction and traffic and to reach the general public. The billboards are designed to communicate the importance of calling the North Dakota One-Call 800 number or 811 at least 48 hours before the beginning of any type of excavation takes place. Billboard advertising continues to be an efficient, high-impact way of getting an important advertising message across to the residents of North Dakota.
