RE: NORTHERN STATES POWER COMPANY FOR
ELECTRIC RATE INCREASE APPLICATION
LATE FILED EXHIBITS
CASE NO. PU-12-813

Dear Mr. Nitschke:

During technical hearings held August 27, 28 and 29, 2013, additional information was requested by various parties, including by the Commissioners. These items were identified for the record and pre-admitted as “late-filed exhibits”. There was a partial submission of Exhibits A-P on October 4, 2013. After consulting with Advisory and Advocacy Counsel, we submit the following:

- Ex. A Jurisdictional Demand Allocator - Order approving 12CP and identification of prior method used.
- Ex. C Charitable Donations & Economic Development Expenditures for NSP ND, 2003-2012
- Ex. G State of New York Orders demonstrating use of sustainable growth models
- Ex. N Comparison of Staff and NSP Capital Structures

Additionally, we provide:

Ex. NSP-38 Corrections/Changes to Testimony of NSP Witnesses

Exhibit NSP-38 is a list of corrections to the rebuttal testimony of NSP witnesses Laura McCarten, Ann Bulkley, and Steve Wishart (Exhibits 6, 15, and 17, respectively) that were mentioned during the hearings while these witnesses were on the stand. In response to Judge Fetch's request to prepare changed copies for the record, we have prepared a package containing a summary of each change made and complete copies of each of these testimonies with the corrections clearly marked on each applicable page.

Exhibit E, Demonstration of Cost Savings by Having Annual Incentive Plans and Exhibit P, a chronology of MN Legislative Mandates and Associated Regulatory Actions, are still in progress.

Please contact me if you have any questions regarding this filing at debra.j.paulson@xcelenergy.com or 612-330-7571.

Sincerely,

DEBRA J. PAULSON
MANAGER, RATE CASES
NORTHERN STATES POWER COMPANY
