Oil Pipeline Tariff Filing

DEC 20 2012

Attn: Public Utility Division

PUBLIC SERVICE COMMISSION

Tariff Department:

Enclosed for filing with the North Dakota Public Service Commission (NDPSC) are seven copies of the following tariff issued by Enbridge Pipelines (North Dakota) LLC (“Enbridge North Dakota”):

NDPSC Tariff No. 97, canceling NDPSC Tariff No. 95

The tariff bears an issuance date of December 18, 2012 and an effective date of January 15, 2013.

Explanation of Tariff Filing

NDPSC Tariff No. 97 modifies the existing local proportional tariff with the following four changes:

1. The addition of new rates (Table 4 and 5) for delivery to Berthold, North Dakota to accommodate connections at that location to the Enbridge Pipelines (Bakken) L.P. (Enbridge Bakken U.S.) pipeline and Enbridge Rail (North Dakota) LLC facility. Movements to Berthold will begin on February 1, 2013, with nominations for those movements being accepted on January 15, 2013.
2. The cancellation of rates in Table 1 from the Enbridge North Dakota system to the International Boundary near Portal, North Dakota, as the operation and ownership of the Portal Reversal Expansion Project is being transferred to Enbridge Bakken U.S. as of February 1, 2013. No nominations for movements to the International Boundary have been received since August, 2012 and all linefill will be delivered out in January.
3. A discount of two of the existing rates in Table 2 to Tioga, North Dakota for delivery to Tesoro High Plains Pipeline Company.
4. The renaming of a connecting carrier in Table 7 to reflect results of the connecting carrier’s sale.

New Rates for Delivery to Berthold, North Dakota

On August 26, 2010, Enbridge Bakken U.S. and Enbridge North Dakota filed a Petition for Declaratory Order requesting advanced Commission approval of the proposed rate structure for their portions of the Bakken Expansion Program (the Program). The Program consisted of 3 separate projects, one by Enbridge North Dakota, one by Enbridge Bakken U.S. and one by a Canadian entity. The FERC issued an Order on Petition for Declaratory Order, 133 FERC ¶ 61,167 on November 22, 2010, which found that the proposal appropriately distinguished between committed and uncommitted shippers and provided for rates that are consistent with the obligations of each class of shipper.

NDPSC Tariff No. 97 includes new rates as discussed in the Petition which accommodate connections at Berthold to the Enbridge Bakken U.S. pipeline and Enbridge Rail (North Dakota) LLC facility. An additional 225,000 bpd of capacity to Berthold, North Dakota is being provided to facilitate movements to these connections.

The uncommitted rates are subject to yearly FERC Indexing. The committed rates to Berthold are the sum of a negotiated per-barrel base committed rate and a per barrel "flow through" charge for operating costs. The committed base rates are subject to yearly FERC Indexing while the operating costs will be trued-up on an annual basis.

Discounting of Rates to Tioga

NDPSC Tariff No. 97 discounts the existing rates to Tioga in Table 2 below that of their established ceiling rates. Appendix A details the extent of the discount for each receipt point.

Pursuant to 18 CFR 342.2(b), attached to this filing is the affidavit of Feisal Gazie attesting that each of the initial rates in NDPSC Tariff No. 97 have been agreed to by at least one non-affiliated shipper who intends to use the services in question.

Notification

I hereby certify that Enbridge North Dakota has, on or before this date, delivered copies of the above tariff to each person on Enbridge North Dakota's subscriber list by U.S. postal service (First Class Mail) or by other means agreed upon.

Pursuant to 18 CFR 343.3 of the Commission's regulations, it is requested that any protest related to this tariff filing be sent via facsimile to Shauna Bates at (403) 508-3140.

If you have any questions concerning this filing, please call Feisal Gazie at (403) 231-5940.

Sincerely,

A handwritten signature in black ink, appearing to read "S. Bates". The signature is fluid and cursive, with the first letter of the first name being a large, stylized 'S'.
