RE: COST OF GAS RIDER CHANGE

Dear Executive Secretary:

Northern States Power Company, doing business as Xcel Energy, is filing this COG for gas used on and after September 1, 2013 in North Dakota. The attached schedules show the new gas cost supporting worksheets and applicable pipeline tariff sheets.

The net effect of the COG is a decrease to the Residential rate by \$0.03682 per therm from the August COG rate, 8.55%, or \$0.63 for a typical September North Dakota Residential customer using 17 therms. Compared to August, the Commercial/Industrial price is 7.12% lower and the Interruptible prices are 1.57-1.71% lower.

The decrease is a result of decreased commodity costs. The commodity costs decreased due to moderating weather forecasts across the country with no extreme heat forecasted after the next 5 days. Compared to last September, prices are 14-28% higher.

The 2012 – 2013 Annual True-up of Gas Costs and Auditor's Report are being filed concurrently with the COG. The true-up factors are lower for the Residential and Commercial/Industrial classes and higher for the Interruptible classes. The new factors made the gas costs decrease to the Residential and Commercial/Industrial classes larger and caused the gas costs decrease for the Interruptible classes to be smaller.

The cost-of-gas rates for September are as follows:

<u>Customer Class:</u>	<u>\$/therm</u>
Residential	\$0.39402
Commercial/Industrial	\$0.39837
Small & Large Interruptible	\$0.37148

Please contact Martha Hoschmiller at martha.e.hoschmiller@xcelenergy.com or (612)330-5973 or me at paul.lehman@xcelenergy.com or (612)330-7529 if you have questions regarding this filing.

Sincerely,

/s/
