In re: Telrite Corporation d/b/a Life Wireless  
Case No. PU-13-51  
Our File No.: 90-559-001

Dear Mr. Nitschke:

Please find enclosed for filing the original and ten copies of the following:

1. Amended Exhibit "A" to Telrite Corporation's Application for Designation as an Eligible Telecommunications Carrier in the above referenced case.
2. Telrite's Certification.

If you have any questions or need any additional information, please contact me at your earliest convenience. Thank you.

Sincerely,

Wade C. Mann

**STATE OF NORTH DAKOTA**  
**PUBLIC SERVICE COMMISSION**

**Telrite Corporation**  
**Designated Eligible Carrier**  
**Application**

**Case No. PU-13-51**

**CERTIFICATION**

I, Brian Lisle, President of Telrite Corporation d/b/a Life Wireless (“Telrite”), hereby certify on behalf of Telrite the following:

1. I have carefully examined all the statements and matters contained in Telrite Corporation’s January 18, 2013 application (“Application”) for designation as a competitive eligible telecommunications carrier (“ETC”) in certain identified non-rural and rural wire centers in North Dakota. All statements made and matters set forth in the Application are true and correct to the best of my knowledge, information, and belief.
2. Telrite will utilize the federal low-income universal service support it receives only for the provision of services for which the support is intended.
3. As set forth in the Application, Telrite meets all of the prerequisites to be designated as an ETC throughout its proposed ETC Designated Area in the state of North Dakota.
4. As detailed in the Application, Telrite provides each of the services supported by federal universal service support mechanisms, as set forth in Sections 54.101 *et seq.* of the FCC’s rules, and will offer these supported services in North Dakota upon designation as an ETC, including voice grade access, minutes of use for local service at no additional charge, access to emergency services and toll limitation services.
5. As set forth in NDAC § 69-09-05-12(3)(a)(1), upon designation as an ETC, Telrite is committed to providing the supported services on a timely basis to requesting customers within Telrite’s proposed designated service area, where Telrite’s underlying carriers’ network already passes the potential customer’s premises.
6. As set forth in Telrite’s ETC Application, Telrite will satisfy the intent of NDAC § 69-09-05-12(3)(a)(2) by complying with all service requirements applicable to Lifeline support funding, as detailed in the Application and in the Company’s Compliance Plan set forth at Exhibit D to the Application.
7. Telrite is not seeking USF high-cost support as part of its Application.
8. Telrite has taken, and will continue to take, steps to work with its underlying carriers to remain functional in emergency situations by: (1) maintaining a reasonable amount of backup power to ensure functionality without local alternating (AC) commercial power;

(2) establishing to the extent feasible the ability to re-route traffic around damaged facilities and to manage traffic spikes resulting from emergency situations; and (3) establishing procedures for employees to follow in an emergency to prevent or minimize interruption or impairment of telecommunications services.

9. Telrite will satisfy the applicable consumer protection and quality standards. As set forth in Telrite's compliance Plan (Exhibit D to the Application), Telrite will abide by CTIA's Consumer Code for Wireless Service ("CTIA Code").
10. Telrite will advertise the availability of the supported services detailed in its Application, and the corresponding rates and charges, in a manner designed to inform the general public within North Dakota. This advertising will occur through a combination of media channels, such as television and radio, newspaper, magazine and other print advertisements, outdoor advertising, direct marketing, and the Internet.
11. Telrite offers calling plans that provide customers local usage that is comparable to the incumbent local exchange company ("ILEC") when all of the additional features and functionalities and the inherent mobile nature of wireless service is taken into account.
12. Telrite acknowledges that it may be required by the FCC to provide equal access to long distance carriers in the event that no other ETC provides equal access within Telrite's designated ETC service area.
13. Telrite will comply with all applicable annual reporting requirements associated with being an ETC in North Dakota.
14. As President of Telrite, I have the authority to provide this Certification and to bind the Company as set forth herein.

Brian Lisle  
President, Telrite Corporation

Subscribed and sworn to before me this 16th day of April, 2013.
