**STATE OF NORTH DAKOTA**  
**PUBLIC SERVICE COMMISSION**

Case No. PU-

**Eligible Telecommunications Carrier  
Application**

**CERTIFICATION RELATING TO ORDER PROVISIONS**

I am BRYAN LISLE, a representative of TELONE CORP. (Company) with authority to bind it to requirements to be set forth by the Commission in its Order and I certify Company agrees to the following:

1. Company understands and agrees to the conditions and criteria set forth in Chapter 49-21 of the North Dakota Century Code and Chapter 69-09-05 of the North Dakota Administrative Code that pertain to Wireless Lifeline Only Eligible Telecommunications Carriers (ETC), and that the Company will be responsible for compliance with this order and conditions and criteria set forth in the applicable federal and state laws and rules pertaining to Eligible Telecommunications Carriers offering Lifeline Only services.
2. Company agrees to comply with all statements, processes and procedures set forth in its application (Application) for designation as an ETC in the non-rural and rural wire centers in North Dakota identified in its Application. Company agrees that all statements made and matters set forth in the Application are true and correct to the best of Company's knowledge, information, and belief.
3. Company will use the federal low-income universal service support it receives only for the provision of services for which the support is intended.
4. As set forth in Company's Application, Company meets all of the prerequisites to be designated as an ETC throughout its proposed ETC Designated Area in the state of North Dakota.
5. As detailed in the Application, Company provides each of the services supported by federal universal service support mechanisms, as set forth in 47 C.F.R. § 54.101 of the Federal Communications Commission's rules and will offer these supported services in North Dakota upon designation as an ETC, including voice grade access, minutes of use for local service at no additional charge, access to emergency services and toll limitation services.
6. As set forth in N.D. Admin. Code § 69-09-05-12(3)(a)(1), upon designation as an ETC, Company is committed to providing the supported services on a timely basis to requesting customers within Company's proposed

designated service area where Company's underlying carriers' network exists.

7. As set forth in N.D. Admin Code § 69-09-05-12(3)(a)(2), Company agrees to:
  - (2) Provide service within a reasonable period of time, if the potential customer is within the applicant's proposed designated service area but outside its existing network coverage, if service can be provided at reasonable cost by:
    - (a) Modifying or replacing the requesting customer's equipment;
    - (d) Adjusting network or customer facilities; and
    - (e) Reselling services from another carrier's facilities to provide service.
8. Company is not seeking Universal Service Fund high-cost support as part of its Application.
9. Company commits to using all available means to ensure customers are eligible for the program at the time of sign-up and recertification in accordance with the federal default eligibility criteria in 47 C.F.R. § 54.409(2) and the relevant proof documentation as specified in 47 C. F. R. § 54.410. Company agrees to check all available data bases including the FCC's National Accountability Database and the National Lifeline Eligibility Database when fully functional to prevent duplication and determine eligibility.
10. Company certifies that it has taken, and will continue to take, steps to work with its underlying carrier(s) to remain functional in emergency situations by: (1) maintaining a reasonable amount of backup power to ensure functionality without local alternating (AC) commercial power; (2) establishing, to the extent feasible, the ability to re-route traffic around damaged facilities and to manage traffic spikes resulting from emergency situations; and (3) establishing procedures for employees to follow in an emergency to prevent or minimize interruption or impairment of telecommunications services.
11. Company certifies that it will satisfy the applicable consumer protection and quality standards and will comply with the Cellular Telecommunications and Internet Association's (CTIA) Consumer Code for Wireless Service.
12. Company will advertise the availability of the supported services detailed in its Application, and the corresponding rates and charges, in a manner designed to inform the general public within North Dakota. This advertising will occur through a combination of media channels, such as television and radio, newspaper, magazine and other print advertisements, outdoor advertising, direct marketing, and the Internet.
13. The Commission expects ETCs to offer the services contained in the Company's filing. As a result, if an ETC has not advertised or signed up any

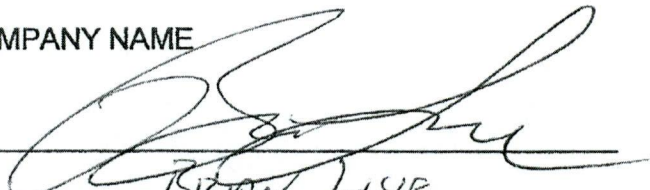

North Dakota customers within 12 months of the effective date of Commission designation as a Lifeline Only Wireless ETC, the Commission may revoke its certification and the Company would have to be reapply to become a Lifeline Only Wireless ETC in North Dakota.

14. Company acknowledges that it may be required by the FCC to provide equal access to long distance carriers in the event that no other ETC provides equal access within Company's designated ETC service area.
15. Company will comply with all applicable annual reporting requirements associated with being an ETC in North Dakota including filing with the Public Service Commission each report filed with the FCC, within 30 days of filing with the FCC. Company also agrees to file at least annually or more often if requested by the Commission, a complete list of its Customers and waivers for the customers on the list.
16. Company understands and agrees that its ability to offer service is subject to suspension or revocation for failure to comply with the Commission's order, or failure to comply with the applicable statutes, rules, regulations, standards, and permits.
17. Company agrees to maintain records that will demonstrate that it has complied with the requirements of the Commission's order and that it will preserve records demonstrating compliance for Commission inspection at any reasonable time upon reasonable notice.
18. To the extent there are any conflicts or inconsistencies between Company's Application and the provisions in this Certification Relating to Order Provisions, the Certification provisions control.
