

STRAIGHT BILL OF LADING - SHORT FORM ORIGINAL - NOT NEGOTIABLE

Manitou, ND

Consigned To: KEANE FRAC ND LLC WILLISTON
BOL #: 22300588
Date: 03/08/2017 10:26 am (MST)
Ship To No.: 614627
Sales Order No.: 00347SB216176L1
Delivery No.:

The property described below, in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all or any at said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) in Uniform Freight Classification in effect on the date hereof, if this is a rail or a rail-water shipment, or (2) in the applicable, motor carrier classification or tariff if this is a motor carrier shipment. Shipper hereby certifies that he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to be the shipper and accepted for himself and his assigns. RECEIVED, subject to the classifications and lawfully filed tariffs in effect on the date of the issue of the Bill of Lading.

PO No.: ND_28067
REL No.:
F.O.B.: Collect
Carrier: A P logistics

VOID

WARNING: CONTAINS FREE SILICA - DO NOT BREATHE DUST
Prolonged exposure to dust may cause delayed lung injury (silicosis). Monographs on the Evaluation of Carcinogenic Risk of Chemicals to Humans (vol. 68, 1997) concludes that there is sufficient evidence in humans for the carcinogenicity of inhaled crystalline silica in the form of quartz and cristobalite (Group 1) in certain industrial circumstances, but that carcinogenicity may be dependent on inherent characteristics of the crystalline silica or on external factors affecting its biological activity or distribution of its polymorphism. For industrial use only. See Material Safety Data Sheet for detailed information. (CAS #14808-60-7)

Additional Shipment Information:

Truck Number: 01
Trailer Number: 202
Driver: Keith
Load Identifier:

RESIN COATED SAND - ALL GRADES - WARNING
Read Material Safety Data Sheet before opening container and follow OSHA Health and Safety Standards for listed hazardous chemicals. Resin coated sand contains and gives off hazardous chemicals when heated, some of which are a potential cancer hazard. Crystalline silica has been evaluated by IARC as having sufficient evidence of producing cancer in laboratory animals and limited evidence in humans. Formaldehyde - Gas is given off when heated. Formaldehyde Potential Cancer Hazard OSHA A2 list - suspected human carcinogen ACGIH Target Organs: Eyes, Lungs

IMPORTANT - DO NOT BLOW OFF WITH MORE THAN 5 PSI
Subject to Section 7 of conditions of applicable bill of lading, if this shipment is to be delivered to the consignee without recourse to the consignor, the consignor shall sign the following statement: The carrier shall not make delivery of this shipment without payment of freight and all other lawful charges.
