Shelly,

Please see the attached Purchase Order (4/27/17) to Prairie scale, as we are moving forward with a permanent foundation for the Manitou Scale. As discussed Prairie called today to re calibrate, & until the they start/complete the work, can we continue the variance for another 3 month interval or 2 (just in case of weather). My folks in Manitou will redouble their efforts to stay on top of the 3 month calibrations.

Thank you,

Tom Bonno

Fairmount Santrol Terms and Conditions

Written Acknowledgment of receipt of order must be received within 24 hours. Price and Delivery must be confirmed with written acknowledgment within 96 hours. No charges for packing or cartage will be allowed. We reserve the right to cancel this order if not shipped as agreed. The Supplier is responsible to satisfy current governmental and safety constraints on restricted, toxic, and hazardous materials, as well as environmental, electrical, and electromagnetic considerations applicable to the country of manufacture or sale. SDS must accompany order as required. If receiving inspection is indicated on the Purchase Order or Material Specification, the material MUST be checked by the Quality Department before unloading to determine acceptability. Failure to have the load inspected before unloading or failure of the material to conform to this specification, whether detected before or after unloading, is cause for rejection at no cost to the buyer. If certifications are required, they must accompany the shipment, or be faxed to the attention of the Quality Supervisor before receipt of the shipment.
